## COMMERCIAL MATTERS Sales at the Stock Eschauge ... Jesz 13. | Color | Colo

WEDNESDAY, June 13-r. M. The Stock market to-day exhibited much the same features as yesterday-beaviness and duliness. With all the elements of improvement existing in the business of the country, and with the promise of a very favorable harvest impending, there is an unwillingness on the part of street and outside operators to sustain the movement for the rise, which was inaugurated in the Spring, not easily accounted for. The short in-terest are the principal buyers, and this interest is now much smaller than it was. Meanwhile, the bears canlate the bulls in inactivity, and the result is a sort of financial dry-rot, under which prices gradually settle down. Central, with very moderate transactions, fell off to 814. Erie was freely offered, and sold down to 18%. The foreign orders for this stock have subsided. Pacific Mail opened at 911, but was p'enty, and fell off to 91. The Western shares were comparatively active, but lower, being unfavorably affected by the decline in Galenz, although the decline this case is due to special causes, which do not influence the other roads. The principal of these causes is the entire failure of the last corn crop on the line of this road, and the exhaustion of the surplus wheat. On the other lines, especially those reaching middle and Southern Illinois, the crop was good, and has yielded a large amount of business this Spring. Should the present corn crop be as good as it promises to be, the receipts of Galena will hereafter approach more nearly to those of 1858. Illinois Central was again lower, selling at 613. Galena came out very freely at a decline on yesterday's prices, but was well sustained during the call. The stock evidently has friends who have yet faith in its future. Rock Island and Burlington were also lower. At the Second Board the market opened very heavy, with a fair supply of stock offering, and lower points were touched. Toand after the regular session an advance of | # | + cent was cetablished, the market closing steady. The closing prices are: Tennessee 6's, 922 @ 93; Virginia 6s, 931 #931; Missouri 6s, 841 #841; Canton Company, 201 221; Cumberland Coal, 121 2134; Pacific Mail, 90; #91; New-York Central Railroad, 81; #81; Erie Railroad, 18; #18; Hudeon River Railroad, 47; #47; Harlem Railroad, 111 @ 111; Harlem Railroad Preferred, 374 @ 38; Reading Railroad, 404 @ 401; Michigan Central Railroad, 51 @ 514; Michigan Southern and Northern Indiana Railroad, 11; 212; Michigan Southern and Northern Indiana Guaranteed, 23; @24; Panama Railroad, 133 @ 1333; Illinois Central Railroad, 61 2 @ 62; Galena and Chicago Railroad, 62 @ 621; Cleveland and Toledo Railroad, 291 @291; Chicago and Rock Island Railroad, 68½ 2683; Chicago, Burlington and Quincy Railroad, 75½ 275½; Illinois Central Railroad 7s. 91 2911.

The business of the Sub-Treasury was: Receipts. \$97,355 07-for Customs, \$71,000; Payments, \$236,-067 59; Balance, \$6,482,505 84. The payments include \$110,000 California drafts.

The time during which the Secretary of the Treasury has the right to reissue Treasury Notes expires on the 30th instant, and there will be about ten millions of dollars ever due, on which the Secretary is required to give sixty days netice, if he wishes to call them in. We presume he has about a million on hand, paid in for duties and redeemed. These he can reissue at any moment, with or without advertisement, and will probably do so during the month, and perhaps also offer holders of overdue notes the privilege of exchanging them for new notes with twelve months to run. As the Secretary has not now time to give the required notice of payment before his right to reissue expires, the overdue notes must be paid when presented here

COMMISSIONERS OF EMIGRATION.

COMMISSIONERS OF EMIGRATION.

At the meeting of this Board held yesterday afternoon, it appeared from the weekly statement that the number of arrivals at this port to date was 41,131. In the same period last year, 31,176. Balance of commutation fund in bank, \$30,666 88. A communication was received from Dr. Jerome, resident Physician at the Marine Hospital, inclosing a bill for salaries of the employes at that establishment. The bill contained the claims of Daniel Itale, Steward, for \$66 66, for salary for the past month; also, the wages of two servants belonging to the doctor's house, held at \$6 a month each. The bill was rejected, it being contended that the Board was not indebted to Mr. Hale, as they had dispensed with his services on the lat of May. The Commissioners deemed the conduct of Dr. Jerome as very insulting, in sending a bill to them for the wages of his personal servants. The Committee appointed to obtain a loan on bond and mortgage on the Seguine's Point property reported that they had received a favorable offer from the Mutual Life Insurance Company, who will loan \$7,500.

Mr. Sweeney's office, No. 47 Wall street, all the members being present.

Mr. Johnson presented the claim of George W. F. Randolph, who, being duly sworn, testified as follows: I was a boatman at Quarantine under Dr. Thompson in 1850, and have been since under Dr. Gunn; I fixed in one of the houses which were burned; I have since lived outside of the walls; I lost upward of a cord of wood. 44; half tun coal, \$430; damage to furniture. \$25; moving furniture. \$5 pent outside the walls at \$10 a month, \$75. The claim was submitted.

Mr. Leavenworth said that the Commission had decided not to entertain either of the items in Captain Nelson's claim, as they did not think that such a claim could be justified by the statute.

Mr. Johnson presented the claim of Dr. Waller, Deputy Health Officer, amounting to \$7,300; also that of Dr. Thompson, Health Officer, amounting to \$19,500.

A Johns sented him self before the Commissioners, and submitted he following claim:

"Seanan's Retheat, S. I., June 8, 1860.—The hearer, Henry St. Clair, was sent to the Seaman's Retreat on the lith of September, 1858. He was an immate of the late Marine Hospital at Quarantine at the time of the destruction of the buildings, on the let and 2d of September of that year. He was then ill of yellow fever, and is now suffering from general paralysis which has resulted from that illness. He has been here the most of the time since his first entry as a patient on the above-named date. He states that he lost some valuable clothing at the time of the configuration—indeed, all he had, the value of which he may be able to state. He is a poor, unfortunate, and permanently-invalided and or.

Attorney-General Myers said in reply that the Commission had no right to entertain the question of the constitutionality of their existence. All they had to do was to appraise the damages, after which the defendants had their resort in law fer their rights.

Mr. Leavenworth said that the Commission was unanimous in the opinion that they had no right to entertain the question as to the propriety of their own existence. Their business was simply and wholly to estimate damages.

Dr. Bissel cross-examined—I took the inventory of the articles myself, with the assistance of my clerk; I made the present list as soon after the burning as we had an opportunity of arrancing all the patients; in makin sedimates I was aided by Dr. Walser; he supposed there were some herbs, &c., in the medical department perhaps 60 years old which could not be valued; I arrived at the estimate of the value of the bedsteads by inquiring at some dealers and makers of the articles in this city; I did not of my own knowledge know anything of the value of the articles; I have never seen the original inventory since the fire; I sant it to the Commissioners of Engration at the time it was made, and a copy was reserved at the office; I cannot say whether I have seen that inventory, or a copy of it since the fire; the paper made out after the fire was not compared with the original inventory taken before the fire; I knew the number of the bedsteads by their location in the different wards; there was a regular number in each ward; I did not know the number in each shauty; I did not myself ever count the beds in the shautles; I had only counted them when patients were ready to occupy them; I did not count the sheets myself; I sot at this by supposing that each bed had a pair; I knew the number of shools by the number of persons who sat on them; I got at the value of the stores by "guess work"; there was no had; I kept no account of them after they came in; I arrived at the value of the fire engine by what one cost in "our town"; I mean by our town, Genesse; I don't know the price of fire engines in this city; the two carriages were valued at \$200; one was made for four horses, and had cost originally \$250 or \$\$80; at the time of the fire it was not worth more than the materials; I got at the quantity of the coal by having parchased 400 tuns the pre

ELECTION OF A DISTICT-COURT CLERK.-The Su pervisors on Monday, after fifty-four ballotings, elected John V. Gridley, Republican, Cleak of the Court of the new judicial district created by the last Legislature. The officer has a salary of \$2,000, and fees amounting to nearly as much more, but the contention for the office has been entirely out of proportion to its value. It was generally understood that the Democrats would concede this appointment to the Republicans, but the Republicans could not agree upon a candidate until after more than fifty ballots.

POISONED BISCUIT .- The Boston Courier, noticing the statement published in this city by "An Honest Baker," to the effect that some bakers here use, as a chesp substitute for cream of tartar, a substance, of

which oil of vitriol is the chief ingredient, says:

"Such statement seems absolutely incredible. But
whether it be well-founded or not, we cannot suppose
the fort will execut thorough investigation. And a whether it be well-founded or not, we cannot suppose the fact will escape thorough investigation. And a terrible doom should await the perpetrators of a crime so dreadful. A baker who would use such an article, knowing its character, ought to have his throat rammed full of the infernal mixture, and be burned at the stake with a fire kindled out of his own flour

## CITY ITEMS.

BULL'S HEAD.—The price of beef cattle suffered still further decline toward the close of the market yesterday; if not in the price per pound, in the estimation of weight, which is all the same to drovers, several of whom stood by and saw their bullocks sold at 8 2 9c. a pound net, which cost them at the West four cents oss, making a loss of \$4 to \$8 a head. Of course, they were not jolly. We think they were lucky to sell out at any rate. Some of the droves held on till late in the day, but all finally sold, at an average, probably, of \$3 a head less than the average of the same quality last week. There is no mistake this year about a decline in the price of beef-cattle in "atrawberry time."

POLICE COMMISSIONERS.—At the meeting of this Board yesterday, Patrolman P. A. Burleigh of the Eighth Ward was dismissed from the force for neglect of duty. It was resolved that hereafter all cloth for the regulation uniform be furnished members of the Department at cost at Police headquarters.

THE MISSING MAILS,-Montreal mails of the 2d, 6th, 7th, 8th, and 9th are all missing, causing great confusion in all branches of trade with Canada East; remittances not received, bank advices, &c. The writer called the attention of the Post-Office employees to the fact on the 8th, baving had telegraphic info tion of letters mailed the 6th, but they apparently did not give the matter their serious attention till the 9th orllth. It seems high time that publicity be given to so long-continued stoppages of the entire letter mails.

FRENCH REPUBLICAN CLUB.-This Club, which has been organized for the purpose of disseminating among the French population of New-York reliable information upon American politics, holds its meeting every Thursday evening, at No. 618 Broadway. These meetings will be found exceedingly interesting to all persons who speak or understand French, as all the questions at issue between the Republican party and that soi disant Democratic, are there ably discussed. If those of our own citizens who desire to improve their knowledge of the French language, and, at the same time, contribute by their presence to the estab-lishment of this Association, would regularly attend its sessions, they would find themselves well repaid by the opportunity afforded of listening to a variety of speakers in animated debate.

MINOR CITY ITEMS .- With the advent of Summer, the measuring-worm pest is upon us. They fall from every tree in the streets and parks upon the people who pass beneath, and it is now no novel thing to see a fine lady carrying half a dozen of these disagreeable ornaments upon her bonnet, or a well-dressed gentleman serenely unconscious of the fact that his fine linen is set off by two or three of these dirty insects. It seems that this nuisance might be greatly mitigated, if not abated altogether, by importing and domesticating a few thousand pairs of the English House-Sparrow. They may be purchased for two or three cents a pair and one of our German bird-merchants would bring them over for a mere trifle. The cost of the experiment would be small, while the comfort to be derived from it would be very great, to say nothing of the beneficial result to the beautiful shade trees that adorn the city. The House-Sparrow is extremely hardy, and very prolific, a single pair frequently rearing fourteen young ones in a season..... The Commissioners of Health held another meeting yesterday afternoon in the private office of the Mayor, nd transacted business for a considerable time in secret session .... It is said that those who were engaged in raising funds for a Heenan testimonial say that the ardent enthusiasm of the admirers of the Benicia Boy is rapidly cooling off. They assign as the cause, a general disgust at his plan to go on a sparring tour through England. His friends think he should first have returned to this country .... The New-York Delegates to the National Sauitary Convention, consisting of fourteen members of the Common Council, the Resident Physi-

cisn, and other of the health authorities, assembled at the City Hall yesterday at noon, for the purpose of making some preparatory arrrangements relative to the trip, and departed in a body at 50 clock for Boston,.... Of course, all the world and his wife will be out on Saturday to see the Japanese upon their arrival. Placards are appearing on Broadway, offering to let eligible front windows to parties wishing to see the procession.

Prices range from \$5 per seat upward.... The Staten Island and New-York telegraph line is at last com-pleted. The Morse line, of Wall street, having bought ut the original Company, have replaced the stolen wires, and are now in good condition to send messages at any time and everywhere.... The Committee to re-ceive the Japanese asked the Mayor to go down and meet the Embassy at the depot. His Honor, however, declined to do so, and said that he would see the city's guests in the Governor's room, and not elsewhere..... The police sale of unclaimed property took place yesterday. There was nothing valuable sold, excepting a gold watch, which brought a fair price; but the total amount of the proceeds will reach a good figure .... The witnesses in the case of Sergeant Ray of the United States sloop-of-war Brooklyn, indicted for the manslaughter of George Ritter on board that vessel, have been discharged. Ray and his accomplice, Casper, have both escaped; and that is probably the last that will be heard of the case in the Courts. It seems to us, however, that the conduct of the officers of the Brooklyn requires attention at the hards of the Navy Department .... Stamps of a larger denomination than those hitherto used for prepayment of foreign postage are to be is-sued, and new "thirty-cent" stamps will be ready next week. It is supposed by the Department that these will answer all purposes, yet some of our mer-chants think that we should also have sixty, eighty, ninety, and one hundred-cent stamps, if prepayment is to be exacted, claiming that it is no: right to tax them for extra postage when the stamps alone cause the overweight of their letters.

STATEN ISLAND SHORE RAILROAD .- An adjourned neeting of the friends of the Shore Railroad was held at the house of Mr. Carey, New-Brighton Dock, on Tuesday evening. The Special Committee appointed at a previous meeting reported a plan of organization under the general Railroad act, and the names of about forty incorporators. The capital, \$100,000, with power to increase to \$300,000, and the route, from Clifton to Howland's Hook. The incorporators will soon meet to appoint Directors, and it is probable, therefore, that the Shore Railroad will soon be a fixed fact. This road will open up some of the finest locations for rural residences in the vicinity of New-York.

THE SING SING YACHT CLUB .- On Saturday next the annual regatta of the Sing Sing Model Yacht Club, Com. James L. Wheeler, will come off at that village. The race extends down the river five miles and back. The boats are composed of two classes, and three valu able prizes will be awarded to the winning boats. After the regular race there will be a scrub race, open

BURGLARY, AND ARREST ON SUSPICION,-On Tueslay night, the place of Peter Donnelly, No. 107 North Moore street, was entered by burglars, who stole gold and silver watches of the value of \$100, and \$40 in pennies. On Wednesday, Capt. Dowling of the Sixth Ward, suspecting the place of John Brady, No. 42 Baxter street, procured a search warrant, and caused the premises to be examined. Officer Golden, who executed the warrant, found new and valuable clothing which is supposed to have been stolen, but none of the property which he sought. John Cullerton was arested on suspicion, and held for examination.

CITY CRIME .- Notoriously bad as are the lower Wards of the city, and as well prepared as the reader is to believe that crime is rampant in the First and Sixth Wards, it will yet appear marvelous that, at the First District Court, on Wednesday, Judge Welsh adjudicated 100 cases. Other cases of crime were passed upon, but these were previously registered. At the Combs, a magistrate now sits from early morning until 4 p. m.

ARREST FOR GRAND LARCENY .- On Wednesday the notorious Gardner A. Furniss was brought before Justice Welsh on a charge of grand larceny. It is charged that Furniss went to the stable of Mr. John Harmon, on the 6th inst., and, assuming an air of authority, directed the stable-keeper to give him a light wagon. His manner assured the hostler, the wagon was furnished, and Furniss went to the races. turning, he exchanged Mr. Harmon's wagon with a man in Brooklyn, since which Mr. Harmon has known nothing of his property. Furniss was arrested at No. the Columbian Wine Company. Furniss figured in the ,case of Woodman and wife of New-Orleans, where he appeared as seducer of Mrs. Woodman. He was held in \$1,000. His counsel, Edward L. Hearne, esq., gave the requisite security.

SUNDAY-SCHOOL FESTIVAL .- The first Festival of the Sunday-School of the new Church of the Atonement corner of Thirty-third street and Second avenue, was held on the evening of St. Barnabas Day, at the Home Chapel. Over 150 children were present, who, for more than two hours, delighted a large audience with their sweet singing, securing great praise for themselves, and Mr. W. H. St. John, who had charge of their musical training. Their examination on the thurch catechism by the Superintendent was highly satisfactory; after which the Rev. Mr. Willing, the Rector, presented the Superintendent with an elegant copy of the book of Common Prayer, finely bound in Turkey morocco, and heavily mounted and clasped with gold. It bore the following inscription: "From the Sunday-School of the Church of the Atonement to Mr. D. Clarkson, jr. A Token and Memento of grateful Affection. St. Barnabas Day, 1860." This beautiful expression of thankfulness and love from those whose welfare Mr. Clarkson is so devotedly laboring to promote, greatly surprised him. It was received with deep feeling, and the assurance that it was most highly prized, and would be kept as a sacred treasure. Before separating, about 200 books were distributed to the children, who all seemed greatly to enjoy them-SPINGLER INSTITUTE.-The Tenth Annual Com-

nencement of this Seminary took place at the Chapel in Union Square yesterday, which was gayly adorne with flowers and evergreens for the occasion. The

Abbot, Principal, conducted the exercises, which consisted of religious services, chaunts, and a farewell hymn, the composition of a pupil. The Assistant Principal, the Rev. James Pearson, read some of the compositions, which were received with great commendation by the udience. Dodworth's Band lent its friendly aid on the occasion, and pleasant speeches were made by the Rev. Dr. Smith and the Rev. Stephen H. Tyng.

GYMNASTICS FOR GEORGE LAW.-George Law and the Councilmen will find it no easy task to overcome the following difficulty, in the shape of a law forestalling the infamous grant of part of the Battery enlargement to the first named, without money or price. The aw of 1821 on the subject of the then proposed Bat-ery enlargement, passed on the 27th of March of that year, is tolerably explicit. It reads: Be it enacted by the People of the State of New-York, repre

"That it shall be lawful for the Mayor, Aldermen, and Commonaity of the City of New York to extend that part of the said city usually called the Battery, into the Bay and North and East Rivers, such distance as they may deem proper, not exceeding

600 feet; And forther, that all the title of the people of this State in and to the land, and the land under water, in front of and adjoining to the said Battery, and extending from thesess into the Bay and the North and Fast Rivers, a distince not exceeding the feet, shall be, and the same in hereby, vested in the Mayor, Aldermen, and Commonsity of the City of New-York, and their successors, forever, to remain for the purpose of extending the off Battery for a public walk, and for execting public buildings and Battery for a public walk, and for execting public buildings are the same for any other use or purpose whatsoever, and without any power of selling it, or any partitlersot."

The steamship Karnak, arrived on Wednesday more ing from Havana, brings dates to June 6. Havana was healthy for the time of year, and there were no cases

of sickness whatever in the harbor. THE ALLEGED ROBBERY OF SILVER PLATE.

To the Editor of The N. Y. Tribune.

SIR: I wish to state a few facts. On yesterday evening I was passing Florence's Hotel in Broadway about 60 o'clock, when my attention was attracted by three or four mea in the middle of the street. The next moment I saw one of the men fall from a tremendous blow struck by a lunge fellow in the party, evidently a low species of gamblet. The man fell under the wheel of an omnthus, and was with difficulty saved. However, the wheel of an omnthus, and was with difficulty saved. A CARD,

To the Editor of The N. Y. Tribune.

Sir: In your issue on Monday last it was stated that I assaulted a party of three men who were standing on the corner of Norfolk and Stanton streets. This report is entirely faise. I therefore request you to state that, while passing the men in question, they insulted me by calling me various names, which I will not sully my pen by writing; and finding that I took no notice of them, they liten proceeded to more violent proceedings by kicking me. However, I still proceeded (in my endeavors to leave them without creating a distortance) scross the street. They knocked me down, and one of the gang produced a slung-shot; and when I had fallen, deliberately struck me withit. So I was forced to use arms to defend myself from being killed, as I was alone, and the assaulting party were three. After the occurrence, I went into a barber-shop in the vicinity, and washed the blood away that flowed from my head and face, and then walked quietly home, where I stayed till I was arrested. I wish also to state that I am a Frenchman, and belong to the 55th Regiment, Company H, and if any one is desirous to ascertain my character. I would just refer to any officer or private in the whole regiment. By publishing this, you will oblige.

Your respectfully,

EMANUEL GSCHWIND,

ARREST ON A DENCH WARRANT.—Michael Comer-ing quantities of wheat, last February, from the schooser San's B. Goodwin, was arrested by Officer Cornell of the Harbor Po-lice, on a charge of gund larreny. Efforts were made to arrest Comerford at the time of the theft, but he singled the police until Wednesday. He was taken before Justice Welsh, and locked up for examination.

ASSAULT WITH A BRICK.—Nathaniel Weeks and Susan Hodges quarreled in West Broadway, and resorted to personal violence. Weeks taking a brick, struck the woman a blow on the head which knocked her insensible to the pavement. She was taken to the New-York Hospital, where she remains in a dangerous condition. Weeks was arrested and locked up. ALLEGED THEFTS .- Anna Davis was arrested yes-
